S.S.S. RHEUMATISM

No case of Rheumatism was ever cured except by a thorough purification of the blood; just as long as the blood remains charged with fermenting uric acid poison the painful disease will continue. The pains and aches of Rheumatism are only symptoms, and it is true these may be scattered and temporarily relieved by the application of plasters, liniments and home remedies of various kinds, but the person who trifles with this dangerous disease by depending on local treatment alone is bound to pay for the mistake with constant suffering, later on. S. S. S. cures Rheumatism in the only way it is possible to cure the disease. It goes down into the blood and removes the uric acid from the circulation, so that the nerves, bones, muscles and joints are all lubricated and fed with nourishing matter, instead of being continually irritated and inflamed with the sharp, uratio impurity. When S. S. has cleansed and purified the blood the pains and aches cease, all inflammation disappears, stiffened muscles are made impurity. When S. S. S. has cleansed and purified the blood the pains and aches cease, all inflammation disappears, stiffened muscles are made supple, and every miserable symptom of Rheumatism is corrected. Dairy Commissioner Saunders told how the demonstration work was going along satisfactorily in dairying matters.

matters.

Boys at Work.

A striking anecdote of how the boys of the State are getting interested in profitable agriculture was told by Mr. Sandy. President Charles G. Craddock, of the Lynchburg Chamber of Commerce, and Mr. Farrar added a word to the meneral approbation of the efforts of the board.

Co-operation on the part of county boards of supervisors was generally discussed. The Governor has written a letter to each board asking for appropriations from county funds to the limit of \$20 for each 1,000 of popula-

tion, to be used for demonstration work. It is the intention to duplicate this amount from the national and State funds, spending all the money in the county. It was thought best to have some member of the board or some one interested to visit each county and present the cause to the supervisors. This will be arranged later.

The board then adjourned to meet at the call of the Governor, when the special committee on plans is ready to report.

After adjournment Dr. Barringer held a short consultation with his committee. After a few tentative plans
